

# ARISTOTLE'S NICOMACHEAN ETHICS

Take some time to work through this self-reflection exercise by considering your answers to the following questions:

**1.** How do we function as human beings? What does it mean to be human? What does life mean and what is our purpose?

**2.** What are the REAL problems we face as humans? Are there any problems that we ALL face? If so, what?

**3.** What is the most helpful way I can treat people in my company? What is my theology and methodology?

# ARISTOTLE'S NICOMACHEAN ETHICS

**4.** How do I know my perspective is accurate? On what truths or principles should I base my thinking? Who has the ultimate word on what it means to be human?

**5.** How do all of my studies, research and experience impact the way in which I live my life today? Do I practice what I preach? How do I really know myself?
